

*UC Davis PCIT Training Center
and*

*WestEd Center for Prevention and
Early Intervention (CPEI) Training Collaborative*

Virginia Reynolds, Director of CPEI

Patsy Hampton, Director of Project Launch

Jean McGrath, Special Projects Coordinator

Why a UC Davis-WestEd CPEI Collaborative?

*Evolution + expansion of UC Davis PCIT Training
= New Training Needs:*

- *Advanced PCIT training (e.g., TCIT, PCIT Model Updates, Special Populations)*
- *Periodic consultation for agencies already trained in PCIT, including competency verification*
- *Support in growing and sustaining PCIT programs*
- *Program evaluation and compilation of outcome information*
- *Timely, affordable, and individualized short-term training and consultation packages*

Why a UC Davis-WestEd CPEI Collaborative?

WestEd CPEI promotes best practices, policy development, and collaboration across multiple service systems in California

- *Public, non profit organization created under a Joint Powers Agreement with 17 offices nationwide*
- *Currently providing training and technical assistance to State, County, Public Education, and Community-based organizations in California and other states.*
- *Mission is to strengthen service and support systems for young children at risk for disabilities/special needs to improve outcomes across all service systems.*
- *Capacity to help promote best practices for early childhood intervention across multiple service systems (e.g., mental health, health, social services, early childhood education, developmental services, home visiting, and other prevention & educational services.)*

*Interagency Coordinating Council on
Early Intervention*

*Technical Training and Assistance
Collaborative*

*California Inclusion and Behavioral
Consultation Network*

*First 5 Yolo Early Childhood Mental
Health Training Program*

*Family Empowerment and Disability
Council*

Current UCD-PCIT Training Center CPEI Collaborative Projects

Family Service Association—TCIT Training Project

- *Trained 6 PCIT therapists in TCIT concepts (4-6 hours)*
- *Assisted therapists in providing 6 hours of training to 20 child care teachers and aides at two child care centers.*
- *Offer continuing support (3 site visits and telephone/email consultation) to therapists who will make weekly visits to code, coach and consult with teachers/aides.*
- *Evaluate outcomes in three months with expectation that teachers/aides will increase TCIT skills and that children with disruptive behavior will show improved scores on SESBI.*

Current UCD-PCIT Training Center CPEI Collaborative Projects

EMQ-FamiliesFirst—Fairfield Office

- *Provide training and supervision to 4 (second wave) therapists who received initial UC Davis training and preliminary supervision from an agency TOT.*
- *TOT departed agency, creating a need for six months of bimonthly live supervision, competency verification, and sign-off of remaining hours while initial training cases proceed through the course of treatment.*
- *Training needs identified as: 1) Assessment of current needs and competencies (4 hours); 2) 6-hr booster training for PCIT trainees; 3) 13 site visits for live supervision and video review of PCIT sessions.*

THANK YOU!
