OHSU

A vibrant, high-angle photograph of a waterfall in a dense forest. The water is captured with a long exposure, creating a soft, white, ethereal flow as it tumbles over a series of large, rounded rocks. These rocks are heavily covered in bright green moss, which contrasts sharply with the white water. The surrounding forest is thick with green foliage, and the overall atmosphere is one of a pristine, natural environment. The text is overlaid on a semi-transparent white rectangular area in the center of the image.
